

This information is for young people and is about getting ready for an annual review of your Education Health and Care Plan.

If you have an EHCP (Education, Health and Care Plan) your plan should be reviewed every year.

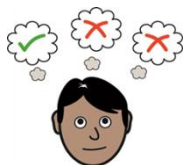

Shropshire IASS can help you prepare for the review meeting.

You can say what you like and dislike.

You can say what you want for the future.

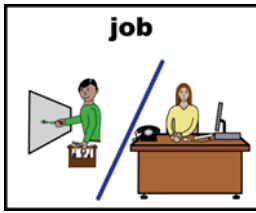

You can say what support is working for you, and what is not.

You can use videos, Powerpoint on a computer, or pictures to help you say what you want.

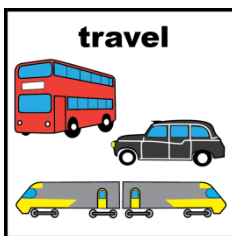

You can invite a parent or other people who are important to you.

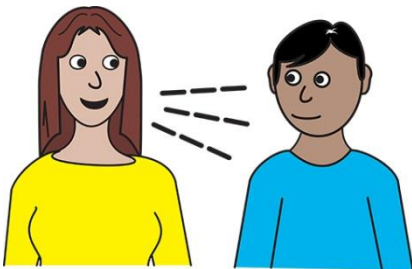

At the meeting you might talk about:

- What you want to study next
- What job you would like to do
- What help you need to make friends or enjoy hobbies

- What help you need to travel
- What help you need to live independently (for example cooking skills).

We can help you have your say.

If you are not happy with any decisions made we may be able to help you.
